Technical Specification

UV Chamber

Material:	StSt 316L / 1.4404
Internal finish:	As made pipe and tube, welds left as laid electropolished and passivated
External finish:	Sateen polish (120 grit) electropolished and passivated
Process (mating) connections:	Flange DN series PN16 rated
Drain connection:	BSPT
End plate:	Removable tri-clamp except PQ 0090 which is a bolted plate
Degree of protection:	IP65 equivalent to NEMA 4 but not suitable for outside use
Arc tube (lamp):	Low pressure amalgam / high purity quartz
Arc tube enclosure:	High purity quartz
Number of lamps:	1
Expected lamp life:	12000-16000 hours
Temperature sensor:	Yes
UV monitor:	Pre calibrated DVGW compliant dry UV monitor
Working fluid temperature:	+5°C to +40°C
Maximum CIP temperature:	95°C with control cabinet electrically isolated
Hydrostatically pressure tested:	Yes to PED requirements EN13445
Operating / Design pressure:	6 bar / 7 bar
Pressure Loss:	Typically < 20 mbar including wiper
Seals:	EPDM FDA approved WQA certified to NSF61 except PQ 0005

Cabinet

Material:	Polyester coated carbon steel
Degree of protection:	IP66 / NEMA 4
Supply voltages:	230V (207V to 263V) 50/60Hz
Operating temperature range:	+5°C to +40°C
Relative humidity:	<90%
Cooling fans:	No
cable length:	10m
External contacts:	4-20mA signal for UV dose and UV intensity, 24V dc 10mA max for trip, warning, system available, system remote, lamp running, replace lamp and Modbus for complete remote control

Technical Specification

UV Chamber

Material:	Stainless steel 316L
Internal finish:	<0.8µm Ra max, welds left as laid electropolished and passivated
External finish:	Brushed to K280 electropolished and passivated
Process (mating) connections:	Flange DN series PN10 rated
Drain connection:	BSPT
End plate:	Removable bolted plates
Degree of protection:	IP54 (NEMA 12)
Arc tube (lamp):	Medium pressure / high purity quartz
Arc tube enclosure:	High purity quartz
Number of lamps:	2 to 4
Expected lamp life:	9000 hours
Temperature sensor:	Yes
UV monitor:	4 Pre calibrated DVGW compliant dry UV monitors
Working fluid temperature:	+5°C to +40°C
Maximum CIP temperature:	95°C with electrical cabinet isolated
Hydrostatically pressure tested:	Yes
Operating / Design pressure:	6 bar / 7 bar
Pressure Loss:	Typically < 100 mbar
Seals:	Viton and NBR 90 approved to NSF61

Cabinet

Material:	Painted carbon steel
Degree of protection:	IP54 (NEMA 12)
Supply voltages:	Model PQ 0200 and PQ 0360 200-300V 50/60 Hz Model PQ 1100 400V 50/60 Hz or 480V 50/60 Hz
Operating temperature range:	+5°C to 35°C
Relative humidity:	<90%
Cooling fans:	Yes
cable length:	10m
External contacts:	4-20mA signal for UV dose and UV intensity, Volt free contacts for trip, warning, system available, system remote, UV on, system ready, dose valid, warning, cooling, system OK, wiper fault, ground fault, chamber/cabinet trip, cabinet temperature warning, chamber temperature warning, low UV, lamp failure, Modbus output. Inputs remote start / stop, remote reset, remote wipe cycle.

PureLine PQ

PureLine PQ 0005 - PQ 0090

Product Specific Data

Features

Operational Features:

- Lamp on/off
- Remote / local operation
- Validated dose calculation from fixed or variable flow with or without UVT input
- Option of running with dose algorithm which automatically compensates for changes in UV transmittance
- Selectable auto restart following power failure
- Event log (2000), 3 level operating menu
- Pre calibrated DVGW compliant dry UV monitor
- Dry monitor port with light trap

Screen Display Features:

- 4 line x 20 character backlit LCD with indication of System Status
- Remote / local mode
- UV dose or intensity
- Alarms and warning list
- Date and time
- English language

Alarm Message Features:

- Lamp fail
- Low UV dose or intensity
- Operating outside validated conditions
- System warning and trip messages

Safety Features:

- Door interlocked cabinet isolator
- Separate door locks
- Ballast thermal cut out
- Resettable circuit breaker
- UV monitor port shutters (light trap)

Options

- Validation support pack
- Stainless steel cabinet (304)
- 30m lead lengths
- Printed operating menu and safety guides in Chinese, French and German
- Auto-wiper pneumatic operation
- ANSI 150 flanges and NPT drain
- Tri-clamp connections to BS 4825 with tri-clamp drain internal finish <math><0.38\mu\text{m}</math> Ra maximum welds as laid electropolished and passivated
- CIP maximum 130°C with cabinet electrically isolated
- In field reference monitor and intensity meter (LP)

Approvals

- UL 61010-1 and IEC 61010-1
- CE following the low voltage directive and EMC directives conforming to EN61000-3-2,3-3, 4-2, 4-3, 4-4, 4-5, 4-6, 4-8 and 4-11 and 61326-1 class A
- Carollo certified to USEPA / UVDGM (2006)
- UV monitor is DVGW W294-3 approved
- All wetted materials WQA certified to NSF 61 except PQ 0005

Additional Information

All dimensions are approximate for clearance purposes only. Hanovia has a policy of continuous product development, exact drawings are available on request. All specifications are subject to change without notification. Your Distributor or Hanovia Account Manager can advise on correct dosage and specific requirements.

* The maximum disinfection capacity is based on a dose of 32mJ/cm² RED MS2 phage T₁₀ 95% fouling factor 0.95 and end of lamp life (EOLL) 0.9

** Cabinet dimensions allow for door isolator, cable entry, bracket space. For cooling add 300mm to L and 150mm to M dimension

PureLine PQ

PureLine PQ 0200 - PQ 1100

Product Specific Data

Features

Operational Features:

- Lamp on/off
- Remote / local operation
- Validated dose calculation from fixed or variable flow with or without UVT input
- Auto-wiper electric operation
- Stepless lamp power 33% to 100%
- 4 level operating menu
- Pre calibrated DVGW compliant dry UV monitors one per lamp
- Dry monitor port

Screen Display Features:

- 4 line x 20 character backlit LCD with indication of System Status
- Remote / local mode
- UV dose or intensity
- Alarms and warning list
- Date and time
- English language

Alarm Message Features:

- Lamp fail
- Low UV dose or intensity
- System warning and trip messages

Eight decades of continuous development has put Hanovia at the forefront of UV science and technology.

Working with the biggest names in food, beverage, electronics, pharmaceutical, aquaculture, pools and leisure, and many other industries, we have gained valuable insights into our customers' requirements and this enables us to offer you not only the finest UV systems, but a full UV solution for your industrial or leisure water treatment problems – all backed by first class technical and service support, available wherever you are around the World.
