Email: meters@gplains.com**QMP - Portable Ultrasonic Flowmeters**

The QMP is the portable QStar Ultrasonic flowmeter model. The use of multiple processors working in parallel means that QStar achieves an extremely high measurement rate. Signal processing takes place in high performance DSPs which are extremely precise and operate at very high resolution. This enables the device to achieve internal resolution of under 0.001 m/s flow velocity. And since the transit time measurement is purely digital, the measurement electronics are virtually drift and calibration-free.

Item #	Design Type	Operation	Units	Data Logged	Memory	Display	Totalizers	Measurement Range	Signal Damping
QMP05	Ultrasonic	Intuitive via 8 main keys(Soft Keys), plain text display	Metric/US	Measurement, heat data and totalizers	Adjustable, 1 second to 24 hours Cycle	QVGA (320x240), black and white, adjustable backlighting	Heat quantity, volume	±98 ft/s	0 - 100 sec (adjustable)
QMP10	Ultrasonic	Intuitive via 8 main keys(Soft Keys), plain text display	Metric/US	Measurement, heat data and totalizers	Adjustable, 1 second to 24 hours Cycle	QVGA (320x240), black and white, adjustable backlighting	Heat quantity, volume	±98 ft/s	0 - 100 sec (adjustable)
QMP20	Ultrasonic	Intuitive via 8 main keys (Soft Keys), plain text display	Metric/US	Measurement, heat data and totalizers	Adjustable, 1 second to 24 hours Cycle	QVGA (320x240), black and white, adjustable backlighting	Heat quantity, volume	±98 ft/s	0 - 100 sec (adjustable)
